10. Brief Facts of the Case That the complainant is a resident of Brazil and runs a software development company “TechWave Solutions”. He came in contact with the accused MUHAMMAD SHAHZAD S/O JAMSHAD IQBAL through Upwork platform in January 2024. The accused represented himself as a software developer and showed fake portfolio and documents. The complainant assigned a project for development of a mobile application and website. During the project, the accused demanded payments in multiple installments in his local bank accounts in Pakistan, assuring delivery of work. The complainant made total payments of USD 28,750 through bank transfers to accounts provided by the accused. After receiving the payments, the accused failed to deliver the project and stopped responding. Later, the complainant came to know that the documents and identity provided by the accused were fake and he has also cheated other clients. That the complainant is aggrieved and approached FIA Cyber Crime Circle for legal action.
